

ADDITIONAL HEADPHONE MONITORING

One (1) eight channel headphone amplifier

 Stereo input (from monitor console)

 Eight stereo outputs each with individual level control,

 Eg Tascam MH-8 8-channel Headphone Amplifier

Ten (10) pairs of identical same brand closed back headphones

 eg Sennheiser HD25 (No IEMs)

Ten (10) extension cables to comfortably reach from headphone amp to each musician's stage position (8 musicians, monitor operator, plus one spare)

Multicore/Sound Distribution:

In addition to talkback from FOH, we need 4 return lines from

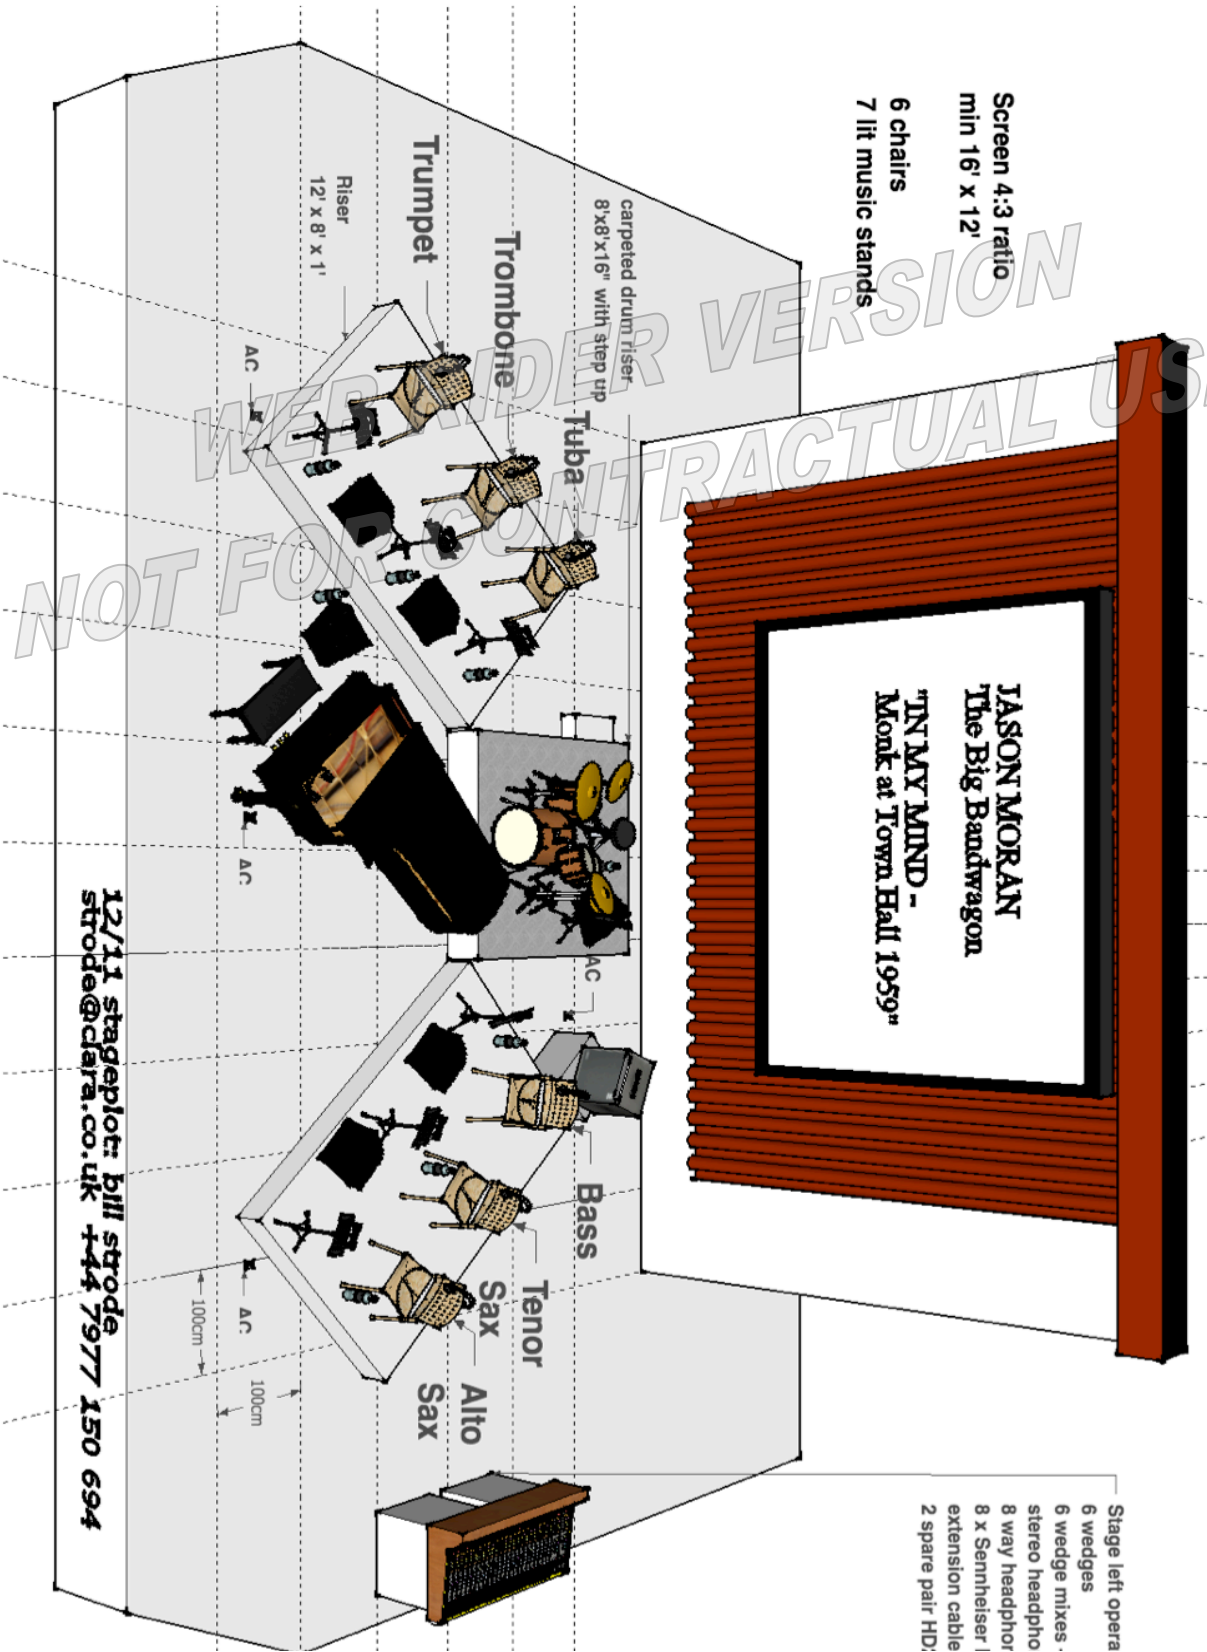

Aux masters at FOH to return to channel inputs on **monitor** console.

Cables at FOH: 2 x RCA phono to 2 x ¼" mono jacks to connect video audio via 2 x DI

Box to FOH sound console

Microphones: As patch list or suitable alternatives agreed with Artist
