Please read this rider carefully. It is part of the attached contract for ARTIST. By signing it, you are agreeing to supply ARTIST with production and proper working conditions essential to performance. Any breach of the terms and conditions of this rider is a breach of the contract and may cause ARTIST to refuse to perform without releasing PURCHASER from his obligation to pay ARTIST. - A6. ARTIST retains rights and control over corporate concert sponsorship and/or tour sponsorship. - E2. A representative of the ARTIST shall have the right to be present in the box office prior to and during the performance and intermission periods, and such representative shall be given full access to all box office sales and shall otherwise be permitted to reasonably satisfy himself as to the gross gate receipts, (and expenditures if required) at each performance thereunder.

- E3. Insurance:

(c) All premiums for such insurance shall be paid timely by Purchaser and Purchaser hereby indemnifies and agrees to defend and hold harmless Producer and its employees, contractors and/or agents from and against any claims, costs (including attorney's fees and court costs), expenses, damages, liabilities, losses or judgments arising out of, or in connection with, any claim, demand or action made by any third party, if such are sustained as a direct or indirect result of the Engagement. This copy must be returned with the signed contracts for this engagement. PURCHASER must also furnish ARTIST with an official State or City tax deduction receipt claiming the amount to be withheld on the night of the performance.
- E9. Artist's obligation to perform thereunder shall be excused if artist, or any of his group or essential crew, is unable to perform as a result: illness or injury; detention resulting from inability to obtain reasonable modes of transportation; riots or other civil strife; strikes or other forms of labor disputes; epidemics; an act or order of any public authority or court; any act of God; or any other cause beyond artist's reasonable control. In such event, artist will not be required to perform and shall return to purchaser any deposits paid, less costs incurred by artist and neither party shall be under any other obligation to each other. In the event this concert is scheduled in a open air venue, inclement weather shall not be considered an act of God.
- E10. Any material breach of this Agreement by PURCHASER may cause the ARTIST, at the ARTIST'S sole option, to terminate the Agreement. If such a breach occurs, PURCHASER shall be obligated to the ARTIST for the full guaranteed amount of this Agreement and shall forfeit all deposit moneys paid to the ARTIST or his agent as immediate and liquidated damages without prejudices to further legal action by the ARTIST.

# LADYSMITH BLACK MAMBAZO SOUND RIDER

***LBM requires the use of the highest quality sound system.*** We recommend that our promoters secure the names of at least three sound vendors in your area and forward a contact name and number to our office as soon as possible so that we may assist you in making the proper choice of sound company. Under no circumstances should a sound vendor be contracted to provide sound reinforcement for LBM's performance without approval of LBM. As a rule, use of in-house sound systems is not acceptable. ***A mix position in a booth is not acceptable – ever! A mix position at the side of the stage is not acceptable – ever!*** However, if it were felt that the venue particular to this engagement meets the requirements outlined below, we may consider in-house specifications. Please email [mitchmurr@aol.com](mailto:mitchmurr@aol.com) with any and all questions you may have regarding LBM's sound.

***Please note: ANY and ALL changes to the below requirements MUST BE APPROVED IN ADVANCE BY LBM's PRODUCTION MANAGER.***

## **MINIMUM SOUND SPECIFICATIONS**

**House Console:** Yamaha CL Series, Yamaha PM5D-RHv2 or M7CL. ***Please note: Analogue mixing desks are no longer acceptable as they do not suit LBM's production needs. THIS IS NON-NEGOTIABLE.***

***Please check on the rental price and availability of LBM's own digital desk.***

**House Effects:** All effects, equalization and inserts will be supplied by the Yamaha CL Series, PM5D-RHv2 or M7CL desk.

**House Mains:** ***PLEASE DO NOT UNDERESTIMATE THE NEED TO PROVIDE HIGH QUALITY SOUND COMPONENTS FOR LBM VOCALS. The system must be capable of covering every seat in the house accurately.*** To achieve the highest quality sound for all members of the audience, the speaker system must be elevated at least 4 feet (1.5 meters) above the audiences' heads. It will be necessary to provide risers to elevate the speakers or, in some cases, appropriate rigging for flying the system. The speaker system should be a minimum 3-way design with active crossovers (Please note that both the system crossover and system delay must be available for adjustment by LBM's Sound Engineer). At least three (3) small speaker boxes must be provided for additional front-fill coverage. We have found that systems utilizing line array technology or trapezoidal designed cabinets – such as, L'Acoustics,

Adamson, D+B Audiotechnik or EAW – suit the needs of LBM’s vocal range exceptionally well.

Subwoofers should be of sufficient power to fill the room with well-defined low frequency sound, and run from a separate aux/matrix send.

If the sound system’s electrical power is to be provided by generators, it is important that the sound system (including monitors) be connected to a dedicated generator. *Absolutely no other electrical equipment should be run off this generator*, including: Show lighting; pathway lighting; trailer and/or dressing room lighting/power; vending machines/carts/trailers of any kind; or tour bus power. If the sound system vendor is separate from the generator vendor, it is important that the sound system vendor contacts the generator vendor to confirm that a generator with more than sufficient power is delivered to run both the House Mains *and* the Monitor System efficiently and without the risk of overload.

**Audio Snake:** LBM requires use of the house audio snake and stage box for the stage sends and audio returns. If no house snake exists, a 16x4 snake of an appropriate length to reach from the stage to the house mix position must be provided.

**Monitors Mix:** Monitors consist of six (6) monitor wedges across three (3) mixes (one wedge on Mix 1, three wedges on Mix 2, two wedges on Mix 3 – *see stage plot*). Monitors will be run from the front-of-house mixing console, unless the performance is part of a multi-act festival in which a separate, on-stage monitors-mix position will be required.

**Monitor Speakers:** (6) Matched 2-way monitor wedges consisting of 1x12” speaker and 1x2” horn per wedge.

(8) Short lengths of 2X4” wood—or equivalent—used to block up the rear of the monitor cabinets.

**Microphones/Stands:** ***LBM USES SENNHEISER MICROPHONES EXCLUSIVELY. NO OTHER BRAND OF MICROPHONE IS ACCEPTABLE – EVER. THIS IS NON-NEGOTIABLE.***

***Please check on the rental price and availability of LBM’s own Sennheiser microphone system.***

(11) Matched *wired* Sennheiser e935 vocal microphones.

(1) *Wireless* Sennheiser vocal microphone with an e935 capsule.

(12) BLACK AKG stands with tripod bases, and legs measuring *at least* 13 inches (33 centimeters) in length.

(12) BLACK AKG telescoping boom arms in good working order.

Please provide mic stands and booms with a BLACK finish. All microphone cables and necessary accessories must be provided.

**Operators:**

PURCHASER must provide at least one qualified operator for the sound system who shall be on call from the load-in to the conclusion of the load-out. If a separate on-stage monitors-mix position is necessary, then this operator will be assigned to the monitor console during the show. *At no time during the performance is the monitor engineer to leave the monitor console unattended!* LBM's Production Manager/Sound Engineer will mix house sound. It is understood that all production personnel are at the direction of LBM's Production Manager/Engineer.

**Please Note: THIS DOCUMENT IS SUBJECT TO CHANGE WITHOUT NOTICE.  
PLEASE CONTACT THE BOOKING AGENT TO BE CERTAIN YOU  
HAVE THE MOST UP-TO-DATE VERSION OF THIS RIDER.**

# LADYSMITH BLACK MAMBAZO LIGHTING NOTES

**NOTE: PLEASE DISREGARD ANY AND ALL PREVIOUS/PREDATED LIGHTING PLOTS**

## **LIGHTING CONSOLE OPERATOR**

In general, LBM does NOT travel with a Lighting Director (LD). We will rely on the talents of your 'in-house' LD or head electrician to operate the lighting console.

With that said, our lighting requirements are very basic. LBM's Production Manager will have a 'glorified' set list for the house lighting console operator that will have the tempos of the songs and what is transpiring on stage. There are no set queues during the show, other than the house light queues at the top and the bottom of each set.

## **LIGHTING REQUIREMENTS**

LBM prefers to have the stage and performers well lit at all times. We find that most house rep plots work well for achieving this goal, with a two or three-color wash being more than sufficient for our needs. The use of gobos or other break-up patterns are acceptable.

When available, a cyc (either cloth or regular projection) at an appropriate distance upstage of the performance area is preferred to an upstage black backdrop.

The color gel palate should lean more towards the warm spectrum of ambers, yellows, orange and reds, but most colours will work with LBM's skin tone and costumes—WITH THE EXCEPTION OF GREEN. AT NO TIME SHOULD THE PERFORMERS ON STAGE BE DIRECTLY LIT WITH ANY FORM OF THE COLOUR GREEN.

## **FOLLOW SPOTS**

LBM does NOT require the use of follow spots.

## **HAZE/FOG**

Use of haze/fog of any kind is NOT acceptable.

## **BACKDROPS/GOBOS**

LBM from time to time will tour a cloth backdrop or logo gobos. LBM's Production Manager will advance the facility to accommodate such a backdrop and/or gobos on a venue by venue basis.

# LADYSMITH BLACK MAMBAZO PRODUCTION RIDER

## ADDITIONAL STAGING REQUIREMENTS

Two tables approximately 4' x 2' x 3' high to be placed off-stage at time of sound check. One stairway from stage into auditorium stalls area to be located either downstage left or right. This should be solidly constructed and securely attached to the stage.

Please be aware that the stage/concert platform must be clear of all miscellaneous set pieces, props, equipment, cabling, risers, ladders, lighting poles, removable concert shell pieces, backdrops or other such items that do not pertain directly to LBM's performance – *period*. The upstage crossover must be well lit, clearly marked and void of any obstructions/obstacles. ***At no time should any of the upstage/offstage areas be completely dark!*** The OSHA standards for providing a safe working environment for the performers and crew *must* be observed at all times. Any unsafe or potentially dangerous situations will result in the production load-in/set-up being stopped until the situation is completely rectified, and may result in a delay in opening the house doors and/or start of LBM's performance.

All air conditioning, fresh air handlers and/or fans that blow onto the stage and into the dressing rooms – either directly or indirectly – ***must*** be turned off upon LBM's arrival, and remain off until LBM's departure. Moving air (especially chilled) can have an adverse effect on LBM's singing voices as well as their ability to perform. It may be necessary for the House have their building mechanic/facilities manager on-hand to assure that the proper air conditioning/air handler units are switched off. **LBM reserves the right to delay their soundcheck as well as opening the house doors and/or start of their performance until these conditions are met.**
